

TESTING SERVICES

Sportswear

- ✓ Customised testing package, specially designed for sportswear manufacturers
- ✓ All tests are carried out in Switzerland in accordance with EN ISO standards

Sport is becoming more and more important in our society. It is not just about health, it is an attitude to life. Thus, sportswear no longer has to be merely comfortable but also functional, in respect to the physiological well-being and performance requirements of the wearer.

Recommended tests

Sportswear functionality can be confirmed by diverse TESTEX laboratory tests:

- Water-Vapour Resistance R_{et} (knitted/woven fabrics)
- Thermal Resistance R_{ct} (knitted/woven fabrics)
- Moisture Management (knitted/woven fabrics)
- Retroreflection (new/after use) (knitted/woven fabrics)
- Dimensional Change (knitted/woven fabrics)
- Colour Fastness (knitted/woven fabrics)
- Bursting Strength (knitted fabrics)
- Breaking Force (woven fabrics)
- Tear Strength (woven fabrics)

Standards

The tests are carried out according to current EN ISO standards.
